

Program Details

The Empower Health Services Individual Screening Program allows you to identify health risks early and better understand your overall wellness. You have the option to complete your screening at a local lab.

Your Screening Package Includes:

- **Panel C** - Testing that consists of a 37-component blood chemistry profile. In addition to identifying signs of heart disease and diabetes, Panel C tests for liver and kidney malfunction, and thyroid, blood, and nutrition disorders.
- **Hemoglobin A1c** - Assesses blood sugar levels over the past 90 to 120 days. This test can help diagnose type 2 diabetes and prediabetes.
- **Prostate Specific Antigen (PSA)** - Screens for signs of prostate cancer in men.
(Included at no cost for men age 50+)
- **Thyroid-Stimulating Hormone (TSH)** - Screens for signs of thyroid cancer.
(Included at no cost for women age 40+)
- Self-Reported Blood Pressure Evaluation – Please provide your most recent blood pressure reading during the online registration process. Blood pressure is expressed by a systolic (top number) and diastolic (bottom number) measurement. (Example: 120/80; 120 = systolic and 80 = diastolic)
- Self-Reported Height and Weight
- Empower Health Assessment™ (REQUIRED)
- One year of unlimited access to our user portal, designed to help you understand and grow your health.
- Results are confidentially and securely available online at <https://empower.health/sprinkler281EHS> within 2-3 days of your lab visit.
